

## HAWTHORNE AND LUCKYBOY DISTRICTS ARE IMPROVING

C. L. Booth is in From Northern Camps and Reports Leasers Quite Active in Developing Different Properties.

Chauncey L. Booth of Hawthorne arrived on yesterday morning's train and in speaking of the surrounding territory from which he came had the following to say:

"The district at this time is taking on a new lease of life; capital is seeking choice territory and investing in divers properties that have merit."

"At Luckyboy, Senator Oddie is operating on the Carroll Rye group and has a perpendicular shaft down to a depth of 300 feet, from which point a crosscut is being driven to develop the entire estate. Before starting the crosscut a streak of good ore was encountered in the shaft that gave promising returns. The company is well financed and in case the rich vein of ore is not cut on the 300-foot level the shaft will be sunk deeper."

"The Alamo company has blocked out ore in large quantities from the 200 level to the 550, which is the deepest point yet reached. All of the ore is of a high grade quality, going better than \$125 per ton. At the present time the company is preparing a shipment of a single carload of ore that will net \$50,000. This is considered marvelous, considering the character of the ore, which is steel-galena."

"The McAfee lease still continues to ship ore and the management is preparing for deeper development as it is the opinion of experts that with greater depth a large ore body will be encountered as the vein has widened out considerably at the 200 level."

"The McCormack company has made regular shipments to the

smelters for the past three months and at the present time has a tonnage of ore in sight that it will take months to stope out."

"On the Silver Moon lease, which is on the Tiffin estate, the work of installing a 10 h. p. hoist was completed this week. The company, which is under the management of J. J. McCarthy, has a good vein of ore in the bottom of the shaft, which has reached a depth of 76 feet. The lease was formerly operated by R. V. LeGrand, who abandoned it on account of sickness."

"In the Pamlico district, 10 miles east of Hawthorne, leasers who are operating on the big property shipped five gasoline cans of ore to the Carson City mint last week, that gave the shippers a return of \$5000. From the same vein a shipment of 30 tons was reduced at the Premier mill that netted the leasers \$100 per ton. The placer properties are showing up well and the operators are nearing the channel as the gold from the gravel continues to become coarser."

"To the northwest in the Cat Creek country the Nevada Consolidated Mines and Selling company has a force of men at work building a road to the main workings, which are three miles from the mouth of the creek. The company has a vein of ore over 125 feet wide developed in several places that will give returns of better than \$18 per ton. It is the general opinion of all that this company will erect large reduction works near the shore of Walker lake during the coming year, which will enable it to reduce its ores at a handsome profit."

## MANANA WILL HAVE HIS TRIAL NEXT MONTH

MEXICAN CHARGED WITH THE MURDER OF BRYON NELSON WILL SOON FACE JURY

Ascension Manana, the Mexican who, it is alleged, murdered Bryon Nelson at Leland, in this county, on the 15th of last June, will undoubtedly have his trial on November 8, as several subpoenas were issued in the district court yesterday, calling for the witnesses to be present on that date.

Manana was indicted by the grand jury last month to answer to the charge.

## MALLEY SAYS ELLENDALE LEASE LOOKS GOOD

FOUR TONOPAH MEN MAKE A FLYING TRIP TO ELLENDALE YESTERDAY

Ed Malley, Zeb Kendall, Frank P. Mannix and W. J. Douglass left yesterday morning for Ellendale, where the party spent the day in looking over the district.

Chief Malley stated after the return that the Malley, Grimes and Warburton lease was still searching after the high grade and had every indication of soon picking up the big shoot. This property adjoins the main strike and from the surface appearances, the ledge cuts directly through the lease. The work is being confined to drifting and crosscutting in an endeavor to find the pay streak.

But two men are employed on the big property and they are steadily engaged in taking out ore.

## FRED SKINNER IS BROUGHT BACK FOR NEW TRIAL

RETURNS YESTERDAY IN THE CUSTODY OF SHERIFF J. J. OWENS

Sheriff J. J. Owens, who left on Wednesday for Carson to secure Fred Skinner, who is to receive a new trial on the charge of murder, returned yesterday with his prisoner.

It is possible that Skinner will be tried during the coming month, although the date has not as yet been set by the district court. He will be defended by Attorney L. A. Gibbons, who conducted the defense at the former trial.

Skinner's appearance upon his arrival yesterday showed that practically no change had resulted from his confinement, although he is considerably heavier in weight, showing that the prison life had evidently agreed with him.

SANCTUARY SOCIETY DANCE A SUCCESS

A fair crowd was present at the Sanctuary society dance last evening and the ladies, who had the affair in charge, were rewarded with suitable returns for their efforts. The best of music had been secured and the dancers enjoyed themselves until a late hour this morning.

## VICTIM OF SUICIDE ATTEMPT WILL RECOVER

YOUNG GIRL WHO DRANK BOTTLE OF LAUDANUM IS NOW OUT OF DANGER

Irene Jester, the young girl of the half world, who attempted suicide Thursday evening by drinking laudanum, had nearly recovered from the effects of the poison yesterday. The unfortunate young woman was not so persistent in her threats to make another attempt at self destruction yesterday as she was a few hours after drinking the laudanum. She said yesterday that as soon as she was able she would leave for her home at Long Beach, Cal. She still continues reticent concerning the cause of her attempt at suicide and would reveal nothing relative to her past.
